### 2174.3 ft<sup>2</sup>

(Gross Internal Area)

*drawing not to scale*

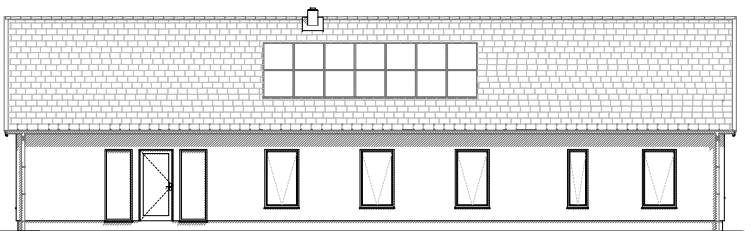

Internal dimensions: 33.8 ft x 66.9 ft  
External dimensions: 35.8 ft x 68.2 ft

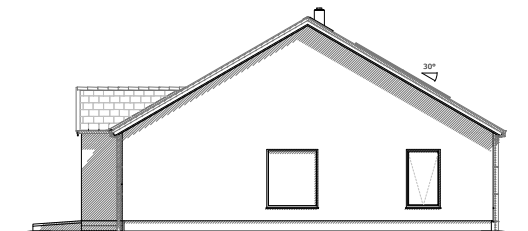

This is one of our largest single storey designs. The long body allows the living areas to be separated from the sleeping areas.

The stepped-in corner feature not only breaks up the facade, it also creates a very usable fully covered outside area.

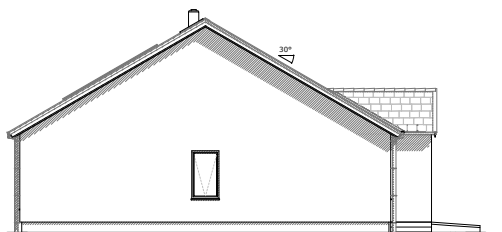

This featured design allows for 4 bedrooms, 1 study and a reading/play room plus a small TV room/study.
